

Thank you for your interest in having Dr. Richard Marn speak at your next dental association event.

Depending upon the amount of time allotted, Dr. Marn has developed several different formats of the following presentation, ranging from 45 minutes to three hours.

Presentation: “Doctor, come quick!” Preparing your team to respond to life-threatening pediatric medical emergencies

How prepared is your team for a *high-stakes pediatric medical emergency in your pediatric dental or oral surgery office*? Learn how to start creating a high-performance team inside your office for properly managing life-threatening medical emergencies (both for non-sedation as well as sedation cases). Our interactive masterclass reveals the latest “crisis resource management” tools and best practices used in top hospitals and how to apply them to your dental practice team.

Major takeaways:

- Discover advanced simulation methods that increase competence, confidence, and a “You got this!” attitude in your team when faced with a medical emergency
- Recognize and effectively manage the most common pediatric medical emergencies in a pediatric dental or oral surgery office
- Learn a tool proven to decrease the risk of malpractice claims
- Work through an emergency plan for your dental practice
- Understand the essential components of your emergency medical kit

Each workshop is tailored to the needs of the event and audience. Dr. Marn’s goal is not just to teach, but to motivate and inspire the audience to build effective teams capable of responding to any medical complication occurring in a pediatric dental or oral surgery practice.

“As an anesthesiologist, Dr. Marn’s work showing dentists, oral surgeons, and their staffs how to effectively respond to various medical emergencies in a dental environment is priceless.”

Bio: Dr. Richard Marn graduated from University of Hawaii John A. Burns School of Medicine (2000) and completed a surgery internship at University of Colorado Health Sciences Center, residency in anesthesiology at NYU and Bellevue Medical Center (NYC, NY), and pediatric anesthesiology fellowship at Johns Hopkins Hospital (Baltimore, MD) before serving for 11 years as one of Mt. Sinai Hospital’s Assistant Professors in the Department of Anesthesiology and Pediatrics. While at Mt. Sinai he founded and served as Co-Director of the Division of Radiologic Anesthesiology, and was awarded Teacher of the Year in 2008. Since 2016, Dr. Marn has been in private practice specializing in dental office sedations, especially for children, throughout New York. Dr. Marn is Dual Board-Certified in Anesthesiology and Pediatric Anesthesiology. He is a member of the Society for Simulation in Healthcare, American Society of Anesthesiology, Society of Ambulatory Anesthesia, International Anesthesia Research Society, Society of Pediatric Anesthesia, and New York State Society of Anesthesiologists. He has served as a previous PALS instructor and AAAASF surveyor. Dr. Marn speaks extensively on the subjects of medical emergency effectiveness, dental office safety, team building, sedation, and general anesthesia.
